INSTALLATION

Press the button and select a desired mode. Then choose a place that can get enough sunshine to install the light, the more sunshine it gets, the longer it can illuminate.

(1) Take out the lamp body, connect the rods and spike in different combinations based on the height you need, adjust the angle of lamp holder and solar panel.

(2) Insert the assembled light into the ground vertically.

OPERATION GUIDE

The default mode of the product is OFF mode. Press the button to adjust modes when using the light.

3 LIGHTING MODES

Press the power button, turn on the solar landscape light. It will charge but not light up in the day and automatically be on in darkness or at night.

Press once to switch among colors under below 3 Modes in a sequence:

Solid Color Mode

Red, Green, Blue, Max working time: 12 hours.

Mix Color Mode

Red & Green, Red & Blue, Green & Blue, Rainbow(3 colors mixed),
Max working time: 12 hours.

Color Cycling Mode

The solar light will change the color gradually in a cycle.
Max working time: 12 hours.

OFF

On the basis of Color Cycling Mode, press the power button again, the landscape light will power off.

WARM TIPS

- 1.It is recommended to turn off the light and charge it under direct sunlight for 1-2 days before the first use. Make sure the product has enough power.
- 2.During the installation, please make sure the landscape light is installed under direct sunlight where there is no shade or eave to shelter the solar panel. Otherwise, the lighting time will be shorter.
- 3.Whether the solar solar landscape lights can produce the best lighting effect or not depends on sunlight intensity, geographical location, weather conditions, seasons and other conditions.

TROUBLE SHOOTING

If the light failed to turn on, please

- a) check if there is any light source around;
- b) charge the light for a while and then cover the solar panel to have a test;
- c) make sure you hear a clear "click" sound when you press the button.
